Assessor Comments	Excellent line of Glenwood blood Wether Lambs that are showing great frame and structure for 7-8 Months of age. Weighed 37kgs+ assessment, these lambs are the top of the drop and are bred out of medium to large frame ewes and are fully trained on grain. These lambs would usually be retained and put on crop to meet trade and export weights, although due to unfortunate seasonal conditions are being put on the market. W&R Mann recently received the 2025 GLQ Score award at Gundagai Lamb for their wether lamb portion. Please call for further information.
