Assessor Comments	Young July 25 drop woolgrower wethers that are an annual purchase from the renowned property "wingeel". They are proven performing lambs that would make excellent future woolgrowers or would also make good feeder lambs for the winter markets. These lambs have been running on cereal and legume stubbles and are all frame. With a four month start in the skin they present an ideal opportunity to feed on and make the most of the winter lamb trade and also the improved wool markets. These weathers represent the second draft of the offering with the ability to put together 901 one mark wethers together with a tail removed from the second draft. Please note dirty lambs will be cleaned up on delivery.
