Assessor Comments	A very neat line of ewe lambs bred by the Ulooloo commercial flock presents an opportunity to secure future breeding stock that are well bred and a true Dohne type. These ewe lambs have been drafted on the fact that they were a later drop and have since been moved to the Hall family's Mintaro block to achieve adequate growth for sale presentation. At assessment these lambs weighed within a reasonably tight weigh group and only a very small, lighter tail were removed. They present with good fat cover and handle firmly under hand, with fresh, healthy skins. Please note that since assessment lambs that appear excessively daggy have been pocket crutched.
