Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.		
Assessor Comments	A very well bred line of Lambro Mixed sex Lambs weighed 40-55kgs full at assessment. Sired by Hampshire/ Dorset rams, these lambs are usually taken through to meet trade and export markets although due to the deteriorating season are being offered to the market. Lambs have been running on barley in self feeders and are performing well and will continue to do so if provided the opportunity to meet lucrative winter lamb markets. Please call for further information please note: 20% of group carrying wet dag.
