Assessor Comments	Well bred line of shorn feeder lambs. Lambs are trained to grain though have not recently had exposure due to being on grazing crops. Individually weighed 32-40kg at assessment with the lead and tail retained on farm. Lambs are performing well on grazing crop and would be generally taken through to august as export lambs. Tightness in season has offered them to the market. Lambs are proven performers from a well managed operation. Please call for further information.
