Assessor Comments	100 wth lambs all weighed 33kg to 43kg to av 39.1kg full. Will be a mix of July and Sep drop lambs. 70% are 2nd cross and 30% WS x merino lambs. They were shorn in March and received a short acting drench at assessment. They are big framey lambs that will finish quickly given the right nutrition, they have only been running on grass. There is approx 30% of the lambs have horns, some are small and others large (see photos). The 2nd cross lambs have a lot more cover than the first cross. Some of the first cross are large frame with no fat cover. The tops are in the same sale.
