Assessor Comments	Presenting a neat line of 300 M/A 2026 new season W/S X MO suckers. If you're looking for a ripping line of crossie suckers these fellers are right for you. Bred from large frame Ramsgate blood merino ewes joined to high indexing Fingerpost White Suffolk rams, the genetic package couldn't be stronger. Vendors consistently aim for & achieve high growth rates, as a deliberate move to turn off heavier carcasses in an earlier time frame. Lambs have been imprinted onto grain via trails along side their mothers. Weaned at delivery.
