Assessor Comments	Buyers, On offer is 565 March drop Dorset x Merino Suckers. These lambs are ideal to induct into the feedlot or put onto crop having been weaned over a month, individually weighed between 34-37kg's as well as up to date with animal health. Lambs have come through set backs with weaning and rainfall, and with the longer days will begin to power ahead. With 10 years of large framed, plain bodied western merino influence in East Loddon and 20 years of using Valley Vista Poll Dorset rams these lambs have plenty of frame and depth to grow out into heavier lambs. Please notice 10% of this mob have some degree of scouring or dags.
