| Any Access To Rams or Stags?             | To vendor's best knowledge, this lot has had no access to rams or stags.                                                                                                                                                                                                                                                                                                                                                                   |
| Assessor Comments                        | 242 1st X Lambs, 57.7kg average at time of assessment, May/June drop 2025, April shorn, drenched. All Ewes are sired by a well-known Wattle Farm Border Leicester rams, while out of large frame Western Riverina Merino Ewes. Ewes are up to date with a drench and present in forward condition. Great opportunity to secure top quality genetics to add to any program. A small tail has been drafted out. Lambs ideally need a crutch. |
