Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	185 lambs that have been on feed for 32 days, consistently averaging 300g/day weight gain. These lambs have performed exceptionally well and are now well advanced in the feeding program, requiring only a short period on feed to reach finished weights. Only being offered for sale due to the feedlot becoming too wet and muddy. Otherwise, lambs would have been finished by the vendor and processed. This presents buyers with an outstanding opportunity to secure a quality line of well-started lambs that are close to market specifications, allowing a quick turnaround with minimal additional feeding required.
