Assessor Comments	Prime lamb breeders, on offer is a quality line of first-cross ewe lambs, November / December 2025 drop. They are March shorn and NSM. These lambs are the progeny of ewes which were purchased SIL. They are well grown for their age, showing good frame and breed type. A small tail was removed at assessment with all lambs weighed from 48kg to 64kg. These ewes are a perfect line for the smaller farmer or to top up an existing line. Displaying good growth for their age after running on grazing crop, they are well on track to be ideal to join to the ram of your choice early in the spring.
