Very Light Type: Clover

Very Light Type: Barley grass

Shedding sheep with skins reflective of breeding. Two head did appear to be woollier and could be throwback to composite bloodline in lineage.

Typical for breeding being coarse wool.

Assessor Comments	Offering 230 Haldane Nudie sired wether lambs, presenting in healthy, store to forward store condition. Lambs have been sired by Haldane Genetics rams bred from Tattykeel blood ewes, with vendor switching and focussing heavily on shedding genetics over the last 5 years. Lambs have been running a wet block on improved pasture and will likely show significant improvement if shown the right conditions. Note, vendor will endeavour to crutch dirty lambs prior to delivery. A large tail has been removed. The McNeill lambs have finished to trade & heavy trade lambs in the past. Hard work done, a chance to take on lambs to finish into late winter markets.
