Assessor Comments	Buyers, on offer is a good line of 250 Spring 2025 Drop Merino Wether Lambs. Typically lambs are sold at heavier weights however are offered for sale due to needing to make room for upcoming lambing ewes. This group of lambs have performed well on chicory/lucerne pasture and display a good frame to continue to grow into heavier specifications. A 15% tail was removed at assessment. Lambs present in store to forward-store condition. All lambs individually weighed above 29kg at assessment. Bred from high performance Merignee sires selected for high quality wools and structural conformation. Lambs are trained to grain feeders however are currently not on grain. Healthy lambs that present an excellent opportunity to finish as lambs or retain as wool cutters. Purchase with confidence as lambs are bred within a closed flock whereby only rams are introduced to the property. For more information, please contact.
