Assessor Comments	An excellent run of low dollar per head mixed sex Merino lambs. Out of the renowned Coonerang flock. Coonerang have been based on Boudjah Merino bloodlines for many years with rams selected for wool cut, wool quality, carcass and structure. In particular buying rams with a better fat score at muscle scanning. These late drop lambs are an ideal trade opportunity to shear, fatten and sell or to retain as future breeders and wool cutters. Bred to fill bales of quality wool. Mature wethers at Coonerang cut 7kgs+ of 18.4 micron running on native basalt country. Only being offered to the market due to needing to reduce numbers. Would normally be retained and kept for many years. Lambs are weaned and present in fresh, forward condition. Please note: 5 longer horned wethers can be removed if desired. Approx 14 unmulesed lambs in mob.
