Assessor Comments	A very neat line of young winter drop store lambs. These lambs have been sired by high indexing Cloven Hills Maternal composite and Dorset rams with an emphasis on growth and muscle. All of these lambs have been individually weighed between 30kg 40 kg at assessment with a tail removed. They are grain trained to a lick feeder and also trail fed. These lambs are positioned perfectly for the discerning lamb finisher to continue growing them out into top shelf trade or export lambs. These lambs are proven performers off crop or in a feedlot with the vendor regularly finishing them into supermarket specifications. Young lambs that will grow out into very neat lambs given the opportunity. Please note vendor has another lot in todays sale totalling 368 head.
