Notable Traits	Traits 1 Head Black Marking on mouth 2 Head Dermatitis 8 Head Ewe horn 2 Head Tail dried but yet to fall off 2 Head Undershot jaw noted		
Assessor Comments	Offering 535 vendor bred Merino ewe hoggets and lambs. These ewes averaged 39kg live at assessment and were shorn and jettied on the 20/05/26. The ewes are sired by Rissmerino bloodline rams (ex Well Gully) and are currently moving forward after shearing. The ewes are approximately 5 to 18 months old with the youngest lambs weaned at shearing in May. These ewes should continue to grow out on the right feed and the majority turn into future breeders. Please note this is a genuine flock dispersal with no ewes retained from this drop. Please note at assessment the following traits were noted: 2 head with dry tails yet to fall off, 2 undershot jaws, 2 with mild dermatitis and one noted with a black mark on the mouth.
