Vendor Comments	These are classed in Ewe lambs and are not being retained only due to not getting pregnant on their first joining .			
Joining Details	Not Station Mated 100% Scanned Empty			
Other Joining Details	Ewe lambs were part of a classed in mob that were mated from 13th April to 10th May, this portion was scanned empty on 14/7/26 by Amy Kerley			
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.			
Assessor Comments	This line of quality ewe lambs on offer are showing excellent traits of the Eyre Ultra White breeding programme. They are classed in ewe lambs from a much larger mob and are only being offered as they didn't join first time around. Majority are still holding onto wool on their top line & sides with some starting to show signs of shedding, with clean bellies & breeches throughout with only a few clean skins. PLEASE NOTE **** These ewe lambs are from a mob of 200 - and are being offered as 2 Lines of 100 head as a run out of the gate split. Also in the mob of 200 are 14 October 2025 drop ewe lambs that have NOT being Gudair Vaccinated like their older siblings, these can be identified & marked at the buyer's request. The Vendors also have 2 x Lines of 132 Unmated Ewe Lambs in the same sale.
