Assessor Comments	Great opportunity to purchase vendor-bred rising 1 year old Ewe Hoggets. These Ewes have had a disciplined history of genetic breeding with focus on fertility, fat, muscle and free-growing white wools that displays as a plain, easy care modern day Merino Ewe that returns maximum dollars per head. On inspection, unfortunately the very odd Ewe had a light case of scabby mouth and also lice was detected but was treated after assessment with Spin-off backline and given a Q Drench for good measure. These Ewes will perform in any environment.
