Assessor Comments	On offer is and excellent line of SIL that present in very forward condition. These ewes are western breed and show all the traits of large framed western bred ewes that are built to travel. These ewes cut an average of \$67 last year and are 100% scanned in lamb to White Suffolk rams with 35 head detectable to twins.(please note not all ewes were scannable to twin and single so percentage could be higher). These ewes offer and excellent opportunity to capitalize on a rising wool and fat lamb market.
