Assessor Comments	An opportunity to buy a great run of station mated Mumblebone blood merino ewes in store to forward store condition. These ewes are best described as medium frame and have started to go ahead since shearing. Ewes cut 6.5kg of wool at 18 micron and were dipped with 'Wham' off shears. The 'Whynot' flock are known for the quality and quantity of wool they produce each year and are highly regarded woolgrowers in the district. Ewes are ideal replacement breeders but would suit a trade to scan up and join to ram of choice and trade. Buyers please note breeder has own tagging system so colour of doesn't correlate to colour cycle. Also there is another 500 ewes in the same sale with same vendor.
