Assessor Comments	A unique opportunity to secure quality F1 Crusader Primeline Ewes as part of the Jiskardale Maternal Dispersal sale. With a chance of producing 300+ lambs from these extremely fertile ewes it will give you a head start into the F2 Crusader genetics and lambs that the data says will give higher meat yields with more "optimum fat and marbling for the domestic markets" These young ewes are due to have their first lamb and are a very neat compact ewes that are just at the start of a very productive life and should mature into quality breeders that will turn off good lambs to suit a variety of markets or potentially the breeder operation for the ewe portion. SIL to the Primeline Crusader rams for an expected mid August lambing.1 triplet, 76 twins & 150 singles.
