	Quality Grades Very Good 100%		
Assessor Comments	A very good quality line of CLASSED IN, 5 year old, Gunnegalderie blood ewes. These ewes are medium to large framed ewes SIL to the high grade Gunnegalderie sires at 153%. Over the past 3 years these ewes have achieved greater than a 90% conversion of foetuses to lambs marked. Along with high fertility and lamb survival rates, these ewes are productive wool growers producing 5kg of 18.4 micron wool in the 2025 season. Due to their high production, these ewes are now surplus to requirements. They have a 60mm fleece on their back, and will have a tight 5 week lambing window. They provide an excellent opportunity to secure quality genetics to take advantage of a strong season ahead.
