Comment on Fat Score 1 Sheep

Predominately lighter 1 scores. These ewes have been running on stubble/ fallowed country. After recent change in weather ewes has slipped on green pick. They have been moved to grazing crop and now are on the jump ahead. Strong and plenty of energy even given their long curfew prior to scanning.

Purchased originally from the Webber family of 'Kia-Ora' Tottenham. These ewes were retained core breeding ewes that were only sold from that program due to a shortage in water.
