Assessor Comments	442 merino ewes, April/May 2025 drop, Merrowie bred, Ballatherie blood, Feb ruary shorn, mulesed. A quality line of young ewes that will power ahead if shown feed. Ewes present in forward store condition and will continue to grow and mature into moderate/large framed sheep to suit both merino and prime lamb production. Ewes have been in containment yards since shearing due to season being fed barley and nutrimax 10% pellet. Ewes are nice plain bodies, with a large portion still displaying lambs teeth. A great opportunity to purchase young ewes to breed with or trade before the spring markets.
