All ewes are scanned as singles and are only being sold due to the vendor having an exceptional scanning result. Ewes are pure Salway composite blood which are bred for easy care, early maturity , fertility and sound structure. There mothers in 2025 scanned 185% and marked 165% that year, then backed it up in 2026 with another scanning result of 185%. All ewes are twin born. Joined to high performing Cashmore Oaklea rams. A great opportunity to secure some exceptionally well bred sheep in a very buoyant time in the industry, with all the work done for you. Sheep come with my highest recommendation.
