Assessor Comments	Offering 490 SIL Cashmore Oaklea ewe lambs over two lots of 245 run out the gate. Ewe lambs present in excellent lambing order, are well grown and have been SIL singles to high indexing, low birth weight Elsted Poll Dorset rams. Joining sires were selected to be no greater than 0.28 for BWT. These ewe lambs are only being offered due to an excellent scanning result, with the Goodwood flock typically scanning at 170% (dries in & not identifying triplets). The Goodwood operation is highly productive with fertility a key trait and all consignments of lambs turned off at 24kg or above all year. Represents an excellent opportunity to acquire classed in, SIL Cashmore Oaklea lambs with the breeding to mature into highly productive mature ewes (note: 490 offered as two lots of 245 head run out the gate and dirty lambs will be given small crutch).
