Assessor Comments	A rare opportunity to secure an outstanding line of top-tier first cross ewes from the 2022 drop. These high-performing, proven breeders have consistently delivered excellent results, with the mob scanning in at 137% last year and achieving 126% as maidens—highlighting their exceptional fertility and reliability. These ewes have been a standout asset to the vendor's operation from the very beginning, demonstrating strong maternal traits and overall quality. Station mated this season to Poll Dorset rams (not scanned), they continue to represent a dependable and productive addition to any flock. Offered only due to a shift toward expanding the cattle enterprise, this genuine and reluctant sale presents a fantastic chance to secure a premium mob in the prime of their lives—ideal for buyers looking to strengthen or establish a high-quality ewe base.
