Assessor Comments	The rarest of all items here!! Proven breeders with a good start to the skin and a very stylish phenotype. These ewes were grown in an outstanding season and they have produced year in and year out. The ewes present well but not over fat and have the scope to have outstanding salvage value when sold at CAF stage. Traditionally marking very high percentages of lambs with the only exceptions being exceptional dry periods this flock performs at a peak level when the chips are down. Good enough in the mouth to make it through two more seasons as the presented at assessment these lambs are worth the money. Please note that vendor has 210 Merino/Poll Merino lambs also on A+ today in the national lamb sale.
