Assessor Comments	Exceptionally good line of July/August 2025 drop Gullengamble merino blood future breeder ewe lambs presenting in forward store condition. Vendor has a long history of merino breeding and has been selecting high grade Gullengamble rams with a specific focus on fertility and high weaning weights alongside recent influence from Gunnegaldrie polls with positive fat and muscle measurements. 100% of mob has been individually weighed in Auto drafter between 40-62 kg to Av 43.1kg The Sailsbury flock consistently weans over 140% lambs and has used DNA testing measurement tools placing their flock profile in the top 20% for yearling weigh within the merinoselect database and also placed in the top 14% for ADG in recent years in the Australian Merino Production Trial. Fantastic opportunity to purchase first class genetics as a base for merino breeding enterprise or to join to terminal sire Total of 660 in mob to be split into three lots and delivered as a run out the gate VENDOR IS OFFERING 60 DAY TERMS TO APPROVED PURCHASERS
