	Very Good	20%	Light	40%
Assessor Comments	2 lots of May/June drop, rising 1 year old, Poll & Horned bloodlines direct account of Haddon Rig P/L. Surplus ewes from second classing that will join up at any stage. Ideal ewes to add to a merino operation or as terminal lamb mothers for the fat trade. These ewes have done very well in the last few months and will continue to grow and mature into heavy weight mothers in the next 12 months. Haddon Rig's mission is to breed productive, fertile and high-yielding merino sheep of exceptional quality that will perform consistently for their clients. Haddon Rig have achieved this through selective breeding from Haddon Rig genetics, utilising industry best practice in nutrition and husbandry and combining ASBV data with professional classing. These ewes averaged 45.6kg at assessment. Ewes present very well for breed and condition and are in optimum joining condition and weight. All ewes weighed thru prattley auto drafter as 40kg to 50kg 1 line of 420 heavier sisters in same sale. Highly recommended line of ewes.
