Pregnancy Terms	AuctionsPlus Standard Terms apply.
Assessor Comments	A nice lot of SIL x-bred ewes that would make a terrific opportunity to trade with the current strength of the mutton market. These ewes are scanned at 167% with 29 twins and 14 singles. These ewes have successfully raised a lamb each year with dry ewes removed at marking each year. All the hard work has been done with these ewes, they are joined to high quality Primeline rams and will breed very good x-bred lambs to suit all markets. They should commence lambing in the last week of July for 6 weeks. The vendor is only selling these ewes as they are surplus to his requirements. A good opportunity here for a smaller operation or someone looking to top up a joining.
