	Excellent	100%		
Assessor Comments	Offering 185 exceptional F3 & F4 Nudie SIL ewe lambs blood ewe lambs SIL at 169% to commence lambing the start of August to Cashmore Park nudie rams. These future breeders were purposely purchased directly off Cashmore Park to grow out and join reoffer as SIL ewe lambs. These ewe lambs have not been anywhere near any other sheep since been purchased to keep their biosecurity status. These ewe lambs have done well to join and scan a high percentage at a young age and will lamb down at 11-12 months of age. They are holding extremely good maternal and carcass traits and are in tip top condition and will only improve in the next few weeks and lamb down as good robust breeders with years of high production to come. A ideal line of young productive ewes that are breed from top end Cashmore Park rams that are greater than -1 on the shedding and that are in lamb to top and Cashmore Park rams. Please note they were only shorn for presentation, prior to shearing there was a fair majority that were 3/4 shedded but with short re growth and the remainder had a saddle. There will be no further shearing required for the future. To be sold in 2 even lots of 92.
