Assessor Comments	This is a line of 275 Ewe lambs. LambPro Primeline bloodlines . These Ewe Lambs are Scanned 100% dry and average 55kg at assessment. The Blacks Creek flock commenced in 2014, and since then the Gabb family have been sourcing rams annually from the LambPro Primeline ram sale. The priorities of the Gabb family breeding flock are structure & moderate adult weights whilst retaining high fertility & high progeny growth rates. Since beginning this operation, Tarnawa have set out to continually improve the already well founded genetic base of their flock to the highest level possible with annual ram selection made from the top end of the LambPro catalogue. These ewes have the proven genetic base for those wanting to run a first class enterprise founded on high quality LambPro genetics. Please note ewe lambs have had 2 Campyvax vaccines
