Assessor Comments	Buyers a good line of well-bred Luining and Luining/Angus steers averaging 428kg at time of assessment. Presenting in good, forward store condition with all of the hard work being done. These steers should grow out to make heavyweight cattle suitable for all grassfed markets. The Luining breed are typically well known for their wintering ability and have done very well over the last month. Weight gains should continue to improve moving forward given the opportunity.
