Handled With	All calves had been drafted off from their mothers approximately 20 hours prior to assessment so were understandably a little anxious to get back to them. The majority of the calves settled the more they were handled, a small handful were a little nervous when singled out however settled when returned to the group. Bikes , On foot , Vehicles
Assessor Comments	Buyers a top line of well-bred Hereford & Hereford/Angus heifer weaners averaging 298kg. These young heifer calves are a very good type and have good weight for age. They have frame and length, and are displaying great shape, style and bone. Going forward, they should continue to grow out into well finished medium to heavyweight cattle suitable for all grassfed markets being Greenhams NE acc and NG/NA Note: Vendor has one other line in this sale
