Assessor Comments	Buyers a small but handy line of Poll Hereford sired steer weaners averaging 318kg. Don't let the colour deter you, these calves are of very good quality and have great weight for age. These calves are 8-10 months, weaned mid February, are extremely quiet and easy to handle and are ready to go ahead and gain a lot of weight going forward through Winter and into Spring. These calves have good frame and length, with plenty of shape, style and softness. Going forward, these steers will develop into well finished yearlings suitable for all grassfed markets being Greenhams NE acc and NG/NA
