Assessor Comments	An excellent line of vendor bred Speckle Park and Angus Cross/Speckle Park steers that are presenting great depth, shape, length and thickness. Vendor sources top AI sires from studs including JAD and Blue Spark Speckle Park with a focus on high indexing carcass data. Weaned in mid March, these steers are very quiet and have the ability to grow out into heavy weights to suit grass finished or feeder markets. Steers are Never Ever accredited and electric fence trained.
