Assessor Comments	Buyers a handy line of Poll Hereford heifer weaners averaging 227kg. These heifers are very well bred with Chester and Quamby Plains bloodlines, and were good to handle throughout the process. These heifers are still running with their dams, however would suggest a small percentage of these are already weaned. They have frame and length, and given a chance should take full advantage of any feed available to them. Ideally suited to grassfed programs being Greenhams NE acc. and NG/NA Note: Vendor has multiple lines in this sale
