Assessor Comments	Buyers a small but handy line of Poll Hereford steer weaners averaging 220kg. These steers are very well bred with					

Chester and Quamby Plains bloodlines. They were very also very quiet and easy to handle throughout the assessment process. These steers are still running with their dams, however would suggest a small percentage of these are already weaned. They have frame and length, and given a chance should take full advantage of any feed available to them. Ideally suited to grassfed programs being Greenhams NE acc. and NG/NA Note: Vendor has multiple lines in this sale
