	Steers were really good to draft, handle and weigh. There wasn't a steer in the mob that became agitated or stirry throughout the process.			
Handled With	Bikes , On foot , Vehicles			
Assessor Comments	Buyers an opportunity to purchase a very good draft of "Killymoon" Angus Steer Weaners that have been weaned 12 weeks . These Cattle have had no expense spared with the use of Genetics being bought into the herd. The " Killymoon" female herd are very productive , fertile and show depth & softness and will make proper feeder steers or finish in Grassfed markets . "Killymoon" Steers rarely come on the market as they are highly sought after for Feedlot markets . A opportunity to secure big runs of even weighed Angus Steers with all the ticks ✓ Greenham Never Ever accredited, JBS Farm assured.Grassfed Only , Antibiotic Free. Some steers showing some ringworm but not considered detrimental.Genetics used in the herd are Landfall Keystone, Chiltern Park Moe & Murdeduke Quarterback . These Steers were exceptionally quiet to handle are were a credit to the vendor.
