Assessor Comments	A top quality line of principally vendor bred Angus, Angus Droughtmaster Cross Steers. All No 5's very well grown and show good bone and muscling. Excellent temperament. These steers are the lead draft and would normally be held through to heavier feeder off oats but season dictates early sale. Angus bulls used are predominately Mountain Valley. Feedlots have commented very favourably on performance of steers on feed. Steers are being supplementary fed in paddock with hay, silage and grain. Very suitable to take through to heavy feeder steers or grass fed/oats bullocks. Note vendor has heifer portion same sale.
