Temperament

Yards	Crush	Paddock
Quiet: 55 head	Quiet: 55 head	Temperament not assessed in Paddock

The heifers were a pleasure to handle throughout the yards and crush. In the crush they handled the assessment and pregnancy testing process very well. They were settled in the yards and flowed easily from one yard to the next.

Handled With: Bikes

Notable Traits

	Traits
4 Head	Blue eye in one eye
1 Head	Slight Blue Eye x one eye
2 Head	Slight blue spot both eyes

Assessor Comments: A good to very good quality line of vendor bred EU Angus and Angus x heifers. They are medium frame and suit to background to heavier weights. There is also potential to take the better end of them on as future breeders - no heifers are being kept from this drop due to the seasonal conditions. They are grain and antibiotic free so would also be eligible for a pasture finished program. Vendor has an extended but not continuous calving. They are sired by good quality Te Mania Angus bulls. No heifers with active pink eye at assessment but the yards and the paddocks are very dry and they will be susceptible to infection. The heifers will be rechecked prior to delivery. Note the delivery period, the vendor could also load Tuesday but only pm. The season has been very tough, these heifers will respond quickly to feed.
