Comment on Fat Score 1 Cattle	All score 1 cattle presented are fit to travel long distances.		
Vendor Bred	Yes		
Stock History	Bred from very good quality Angus cows purchased as heifers and cows from the New England area of NSW a few years ago. At the time they were assessed as 100% Angus X Angus.		
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable		
Breeding Comments	By an AI son of a Texas Angus bull, Glenisa Angus, a son of an Alumy Creek Angus bull. Also AI sons of US bulls Musgrave Exclusive & Sydgen Enhance.		
Grazing Conditions	Running on a very dry coverage of native summer grasses that has seen limited summer rains so far. Have been in the yards since weaning being fed hay and handled as part of the the weaning protocols followed by the vendor. Returned to: Will run in a paddock on improved pastures of Rhodes grass and Premier Digit with access to hay as well.		
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment		
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives		

Health Treatments	Drenched	23/03/2026	Delta Fix (weaning)
Chemical Residue	Clear - No known history		
Vendor Comments	Normal turnoff of surplus cattle. These cattle have had no grain or antibiotic at any stage of their life and happy to sign a declaration.		
Temperament	Yards	Crush	Paddock
	Quiet: 101 head	Quiet: 98 head Slightly Stirry: 3 head	Temperament not assessed in Paddock
	Steers were very quiet in all areas of the yards. Approximately 3 head did resent being in the crush but they settled down very quickly once they exited the crush and were back with the main mob.		
Handled With	Bikes		
Notable Traits	Traits 1 Head Blue eye treated (photo attached) 2 Head Cloudy blue eye (photo attached) 2 Head Light ring worm scars 2 Head Light warts on head		
Assessor Comments	Buyers, good quality Angus steers bred from females purchased out of the New England area that present in mainly store to forward store condition. The steers are very quiet; the vendor's always do an excellent job throughout the weaning process and is reflected in these. I will suggest these will fly ahead if they get access to better feed conditions especially on heavier black scrub soil country with improved pastures or crop. Most of these good soft steers show excellent carcass traits with plenty of length and depth of barrel. All the hard work is done; they are well and truly and over the weaning process, not a sound coming out of them, so they are not stressed by being weaned recently. Ideal to put away and background to heavier weights and meet all export feeder specs later in the year. Cattle from Wongavale are continually attracting repeat buyers, evidence they must perform. 2 with old blue eye scarring and one that was treated (Terramycin) and will be checked at delivery.		
Assessor	Bob Jakins (Level 1 Accredited) Phone: 0419 788 366		
Delivery Period	06/04/2026 to 09/04/2026 (4 days)		
Delivery Point	"Wongavale" yards, located 20km north of Inglewood on the Millmerran road. INGLEWOOD QLD 4387 Lat: -28.2969281636631 / Lng: 151.178507879761
