Comment on Fat Score 1 Cattle	All score 1 cattle presented are fit to travel long distances.
Vendor Bred	Yes
Stock History	Bred from very good quality Angus cows purchased as heifers and cows from the New England area of NSW a few years ago. At the time they were assessed as 100% Angus X Angus.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Breeding Comments	By an AI son of a Texas Angus bull, Glenisa Angus, a son of an Alumy Creek Angus bull. Also AI sons of US bulls Musgrave Exclusive & Sydgen Enhance.
Grazing Conditions	Running on a very dry coverage of native summer grasses that has seen limited summer rains so far. Have been in the yards since weaning being fed hay and handled as part of the the weaning protocols followed by the vendor. Returned to: Will run in a paddock on improved pastures of Rhodes grass and Premier Digit with access to hay as well.
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives

Health Treatments	Drenched	23/03/2026	Delta Fix (weaning)
Chemical Residue	Clear - No known history		

Vendor Comments	Normal turnoff of surplus heifers. These cattle have had no grain or antibiotic at any stage of their life and happy to sign a declaration.
Joining Details	Not Station Mated
Any Access To Bulls or Stags?	Yes, last access to bulls/stags: 23/03/2026
Joining Access Details	Have run as followers on their rejoined mothers up until weaning. Doubtful these would cycling just yet due to age and weight however no guarantees can ever be offered.

Temperament

Yards	Crush	Paddock
Quiet: 74 head	Quiet: 71 head Slightly Stirry: 3 head	Temperament not assessed in Paddock

Heifers were very quiet in all areas of the yards. Approximately 3 head did resent being in the crush but they settled down very quickly once they exited the crush and were back with the main mob.

Handled With: Bikes

Notable Traits

	Traits
1 Head	Light ring worm scars
1 Head	Light warts on head

Assessor Comments	Buyers, good quality Angus heifers bred from females purchased out of the New England area that present in mainly store to forward store condition. The heifers are very quiet; the vendor's always do an excellent job throughout the weaning process and is reflected in these. I will suggest these will fly ahead if they get access to better feed conditions especially on heavier black scrub soil country with improved pastures or crop. Most of these are good soft heifers that show excellent carcass traits with plenty of length and depth of barrel. All the hard work is done; they are well and truly over the weaning process, not a sound coming out of them, so they are not stressed by being weaned recently. Ideal to put away and background to heavier weights and meet all domestic feeder specs later in the year or retain as future breeders. Cattle from Wongavale are continually attracting repeat buyers, evidence they must perform. Also 13 lighter heifers offered in sale, probably the youngest.
Assessor	**Bob Jakins (Level 1 Accredited)** Phone: 0419 788 366
Delivery Period	06/04/2026 to 09/04/2026 (4 days)
Delivery Point	"Wongavale" yards, located 20km north of Inglewood on the Millmerran road. INGLEWOOD QLD 4387 Lat: -28.2969281636631 / Lng: 151.178507879761
