Assessor Comments	Attention Buyers - low dollar value!! A smaller line of vendor-bred Angus weaners, out of first-calf heifers, offered due to challenging seasonal conditions, with the vendor prioritising the wellbeing of their breeding females. Calves weighed between 107kg and 227kg, averaging 163.3kg after a significant curfew. Please note that these calves are currently being weaned and are expected to lose weight during this process—buyers should take this into account at delivery.
