Assessor Comments	A quality draft of 60 vendor bred Angus weaner steers. Steers averaged 301kg at assessment, showing excellent weight for age, and are by Eaglehawk, Wattletop and Eastern Plains bulls. A very even, well put together line displaying plenty of shape and softness, these steers are genuine top end cattle with loads of upside, ideally suited to backgrounders chasing strong performance and weight gain. In a normal season these cattle would be carried out to heavy feeder weights. These cattle will be running with the Cow up until date of delivery. Please Note this vendor has three other lots in this sale
