Breeding Comments

Yes

Vendor bred - Angus bulls over Angus cows.

100% of cattle in this lot are Lifetime Traceable

Angus bulls (Clunie Range S16 and P477, Mountain Valley T273 and R748, and Eaglehawk T055) over Angus cows that originally were Eaglehawk bloodlines.

Grazing Conditions

Heifers were weaned on Sunday 19/04 into the yards onto good quality oaten hay where they will remain until delivery. Before that they were on Bambatsi and Buffel pasture with mothers. Returned same

Burr/Seed in Coat

Some minimal clover bur residue in the tail tips and belly fluff

Assessor Comments	A good to very good quality line of vendor bred Angus yard weaned heifers with good weight for age in the current conditions. Mostly medium frame with 2 smaller frame. Good conformation, they are not carrying any excess condition. As weighed at assessment they were 235-343kg 3 hours off feed with an estimated delivery weight of 286kg. They are ideal to finish on grass or grain (after backgrounding) for quality domestic or export slaughter markets, or the top 60% could be grown and joined as future breeders (no heifers are being retained this year). They were yard weaned on 19/04/26 and are extremely quiet. They are educated to hay racks. Located right on the Barwon Highway approx 15 km west of Goondiwindi, they would be easy to link into any carriers moving in any direction through Goondiwindi.
