	3 Head	Old pink eye scarring in one eye	
Assessor Comments	An outstanding line of very well bred Angus Heifers out of a Te Mania blood cow herd by high indexing Rennylea and Speriby North Bulls, A perfect B-Double of quality weaners on offer. Heifers are normally kept for replacements or backgrounding and finishing on grass but due to the dry the vendor is selling weaners for the first time. Vendor always buys very good high indexing bulls from studs that focus on carcass traits (IMF, EMA, carcass weight). Heifers have been weaned over 6 weeks and present in very good forward store condition and had an average weight 268 kg full at assessment. Heifers were yard weaned and have been handled extensively having been rotationally grazed and are trained to single wire electric fences with Dogs, horses and buggy's used when shifting. Heifers are Grass fed and Anti Biotic free. A great opportunity to secure Genetics that normally don't come on the market, future breeders to backgrounding or finishing on grass these heifers tick all the boxes.
