Assessor Comments	Very good line of Angus x Angus weaner steers. Dulverton and cascade bloodlines, These Weaners have been handled extremely well in both yards and paddock. have been weaned for a week on hay. These Steers would suit fattening or backgrounding for feedlot. Some of these steers were cut late however all of the purses look healed up. Some of the steers are still showing secondary sexual characteristics. I'm confident in time they will present very well to feedlot entry specs
