Assessor Comments	A good quality line of vendor bred Angus x Steers, 141 to 199 kgs to avg 172 kgs (1 hour off feed) An obvious tail has been removed. Approx 55 strong Angus types, balance more Brahman cross. The sale steers are generally quiet and easy to handle in the yards (see two separate videos). They are fresh in the coat and going ahead well in condition. This is a good opportunity to buy good quality Angus cross weaner steers to put away. (Vendor happy to scan tags for buyer at no cost if required). One bull calf included, ring put on at assessment. All tidy around the head. Steers will be fed in yards for three approximately 3 weeks by delivery. Additional line of slightly heavier Angus cross steers in this sale as well.
